SPEED 'N STYLE TIRES

# **ACCELERA TIRES ARE ULTRA-HIGH PERFORMANCE TIRES DESIGNED FOR ELEGANCE AND SAFETY.**

---

Made in Indonesia, Accelera's mindset is that tread life should be long, tires should be fast and that safety and performance can get along just fine – given the right tire.

Although Accelera makes a complete portfolio of tires consisting of applications for passenger car, light truck, SUV, CUV, and 4×4, our performance tire line-up is where we truly outshine the competition.

We don't compromise, and we don't think you, or your customers, should either. With Accelera tires, your customers won't have to pick between tire performance, traction, grip, or tread life. Our tire patterns are designed to maximize handling and traction while increasing tire life. Each tire is manufactured using our in-house DeltaMax technology to ensure the highest standard of quality and performance.

# INSIDE AN ACCELERA TIRE

- 1 **2 PLIES HIGH TURN UP POLYESTER CASING**  
with HMLS (high modulus and low shrinkage) material to allow high stability and uniformity.
- 2 **2 HIGH TENSILE STEEL LAYER BELTS**  
at optimized angles for additional safety.
- 3 **2 CYCLES SPIRAL JOINTLESS CAP STRIP**  
with HMPLS (high melting point with low shrinkage) material to protect steel belts and casing, as well as enhanced stability and prevent deformation of tire shape.
- 4 **TRIPLE TREAD COMPOUND**  
**TREAD CAP:** Made with silica compound for low noise, rolling resistance and longevity.  
**WINGS:** Sidewall type compound allows bonding between tread and sidewall.  
**CUSHION:** Extra tackiness & low carbon compound creates adhesion between tread and casing while lowering heat buildup.
- 5 **JOINTLESS BEAD WIRE**  
allows uniformity, less imbalance and reduced chances of breakage.

# WHY ACCELERA?

## PERFORMANCE-FOCUSED PORTFOLIO »

Accelera is uniquely positioned as a lifestyle brand particularly within the performance segment. However, don't let the line's UHP specialization fool you; it also offers a complete portfolio of tires across multiple applications.

## ENGINEERED WITH DELTAMAX TECHNOLOGY »

Accelera tires are manufactured using DeltaMax technology to ensure the automation of the production process and uses silica compounds providing immense durability, handling, and traction while increasing tread life.

## COMPETITIVE WARRANTY COVERAGE »

Our tires come with a comprehensive warranty program. Tire dealers can use this as a selling tool or as a way to recoup funds for their own warranty programs.

## CONTAINER PROGRAM »

Our tires are shipped factory-direct from our manufacturing facility in Jakarta, Indonesia. We partner with domestic dealers who are container-capable to distribute our tires to smaller dealers.

## AFTER-SALES SUPPORT AND RESOURCES »

Accelera customers are given access to our Dealer Portal, allowing them to order point-of-sales materials with points accrued by sales volume, along with tailored training support.

# ECOPLUSH

The Eco Plush is Accelera's all-season tire for passenger cars. Some key features includes three main ribs, mini diagonal grooves, and center ribs with adaptive sipes. The Eco Plush maximizes ride comfort and minimizes noise, making it a solid, reliable choice for your everyday driving needs.

**THREE MAIN RIBS**  
provide excellent grip and low noise.

**MAIN GROOVE AND MINI DIAGONAL GROOVES**  
enable rapid water evacuation for improved wet handling and traction.

**CENTER RIBS WITH ADAPTIVE SIPES**  
improve rolling and braking, and provide traction while accelerating.

MILEAGE WARRANTY  
UP TO  
**45,000**  
MILES

The Accelera Sigma is a dynamic tire designed to maximize performance. A wide shoulder block, multi-cone lateral grooves, and a v-shaped tread pattern will offer you a confident and stable ride.

# SIGMA

**WIDER SHOULDER BLOCK**  
improves cornering stability and noise reduction.

**MULTI-CONE LATERAL GROOVE**  
enables rapid water evacuation to improve contact on wet surfaces, and maintain low temperatures on dry surfaces.

**V-SHAPED TREAD PATTERN**  
enables stability on high speeds and clears water rapidly to overcome aquaplaning.

UTQG > 400 A A > M+S

18	35	215/35ZR18	84W XL	1102	44	7.5	8.6	23.9	10

The Accelera Gamma tire is designed for small minivans. Zigzag shoulder blocks, a dynamic U-Block, and a continuous center rib offer a comfortable and economical drive.

# GAMMA

**UNIQUE ZIGZAG SHOULDER BLOCKS**  
enable rapid water evacuation for improved wet handling and traction, while also reducing noise levels

**DYNAMIC U-BLOCK**  
provides excellent grip on both dry and wet surfaces

**CONTINUOUS CENTER RIB**  
maintains stability and superior handling on straight-line motion

# EPSILON

The Accelera Epsilon is designed with a dynamic directional design. A triple dynamic tread block, v-shaped grooves, and unique shoulder blocks will ensure a confident ride.

**TRIPLE DYNAMIC BLOCK** provides excellent stability at high speeds while reducing noise levels.

**COMBINATION OF V-SHAPED AND MAIN GROOVES** provide efficient water draining to overcome aquaplaning risk.

**UNIQUE SHOULDER BLOCKS** provide optimum cornering stability.

The Accelera PHI is an all-season performance tire that offers excellent handling and flexibility on different road surfaces. Some key features include a dynamic medium lateral groove and a straight, medium rib. Whether you're looking for a race tire or a reliable everyday tire, the PHI is an excellent choice because of its versatility, 400 treadwear rating, and grip and cornering abilities.

**PHI**

**DYNAMIC MEDIUM LATERAL GROOVE**

provides improved wet handling and rolling resistance.

**SHOULDER BLOCK**

provides better cornering stability and noise reduction.

**STRAIGHT, MEDIUM RIB**

improves stability and flexibility on dry road surfaces.

**THE MODERN PHI TIRE**

# PHI-R

**TRIPLE RIB**

improves high speed stability and better steering response.

**SHOULDER BLOCKS**

provide improved cornering and maneuvering stability.

**ADDITIONAL SIPES**

allow pattern noise reduction.

The Accelera PHI R is just like our PHI tire, but with an updated tread design. An all-season performance tire that offers excellent handling and stability, the PHI-R features a triple rib design and additional sipes to improve steering ability and reduce noise. The versatility of the tire compound makes the Accelera PHI R an ideal choice for drivers looking for a solid everyday tire or a tire they can learn to race on.

# PHI-2

## **DYNAMIC MEDIUM LATERAL GROOVE**

provides improved wet handling and rolling resistance.

## **SHOULDER BLOCK**

designed to allow better cornering stability and reduced noise.

## **STRAIGHT DRY RIB**

ensures stability and flexibility on the road.

The Accelera Alpha is a performance tire with a sporty look. Some key features are lateral grooves combined with center straight grooves, and a straight, dry rib, so you can drive with style on the Alpha.

# ALPHA

**MEDIUM LARGE BLOCK WITH LATERAL GROOVES**  
designed with a 45 degree angle to clear water and reduce noise.

**CENTER STRAIGHT GROOVES**  
enable rapid water evacuation and overcome hydroplaning for improved wet handling and traction.

**STRAIGHT, DRY CENTER RIB**  
allows stability and flexibility on high speeds.

# IOTA ST68

The Iota ST68 is a modern spin on the original Iota tire designed for SUVs. Engineered for a comfortable ride and longer tire life, this SUV tire is an excellent choice for year-round performance. Some key features include three interlocked block lanes for quick steering response and exclamation sipes to maintain traction during wet conditions.

## MAIN GROOVES

clear water from surface area in contact with the road to prevent aquaplaning.

## THREE INTERLOCKED BLOCK LANES

provide directional stability and quick steering response.

## EXCLAMATION SIPES

break thin layering of water to prevent aquaplaning and maintain traction in wet weather conditions.

# IOTA EVT

Experience a revolutionary drive with the Accelera IOTA EVT, specifically designed to maximize the performance of your electric vehicle. Equipped with advanced technology, including optimizing rolling resistance, low noise level, advanced tread wear, and optimal grip power to align with the characteristics of electric vehicles.

## ASYMMETRICAL TREAD PATTERN WITH OPTIMIZED ARRANGEMENT OF PITCH SEQUENCE

Allows cross-rotation to offer a quiet refined ride throughout the life of the tire.

## SOLID THREE CENTER RIB WITH MULTI-SIPES

Designed for high-speed stability and extra traction.

## FOUR WIDE CIRCUMFERENTIAL GROOVES

Provide excellent hydroplaning resistance and wet traction.

# OMIKRON HT

The Omikron HT is a highway tire for SUV and light truck applications. Some key features are three semi ribs with interlocked blocks, four wide grooves, and a wide tread. The silica compound and tire design ensure a smooth, stable, and quiet ride. The Accelera Omikron HT is also available in LT-metric commercial application tire sizes.

**THREE SEMI RIBS WITH INTERLOCKED BLOCKS** maintain stability on the highway, offer driving comfort and a quiet ride.

**FOUR WIDE GROOVES** drain water rapidly to prevent aquaplaning and enhance performance on wet surfaces.

**WIDE TREAD WITH SILICA COMPOUND** improves traction. Particularly effective in cold, wet environments.

The Omikron AT tire is designed to maneuver all terrain conditions. Some key features include interlocked and intermediate blocks, two main grooves with notches, and block stepped edges. The Accelerera Omikron AT gives you an edge without compromising on comfort, making it a perfect choice for an all-terrain drive. The Accelerera Omikron AT is also available in LT-metric commercial application tire sizes.

# OMIKRON AT

**INTERLOCKED CENTER AND INTERMEDIATE BLOCKS**  
combined with two sipes assure driving comfort on the highway.

**BLOCK STEPPED EDGES AND Z-SHAPED SIPES**  
enhance traction on off-road surfaces, provide excellent cornering, and prevent irregular wear.

**TWO MAIN GROOVES WITH NOTCHES**  
effectively clear water from area of footprint to eliminate hydroplaning and maintain wet braking.

# OMIKRON CT

Forge a new path with the Accelera Omikron CT. This all-terrain (AT) tire is designed to take you anywhere your vehicle can go. Its ultra-wide cross-section is paired with its clasp-shaped tread blocking system that works to provide you with unparalleled grip in any off or on-road environment. This tire's wide, z-shaped tread grooves are specially designed to maximize mudflow to give you the biting edge you need to pull through the slickest of situations.

**ATTRACTIVE TREAD WITH WIDE CROSS SECTION**  
ensures a longer service lifespan and provides superior traction on all terrains while giving an aggressive look and feel.

**MULTIPLE EDGE BLOCKS**  
prevent slips on rocks while minimizing noise and ensuring a safe and comfortable ride.

**DYNAMIC WIDE GROOVES**  
maximize mud flow increasing traction in mud and snow conditions.

THE MUD-TERRAIN TIRE

The Accelera MT-01 is an aggressive mud-terrain tire that fits all your off-road needs. Unique tread blocks, a deep tread design, and an open scalloped hump will keep you “grounded” while you’re off-roads. Don’t let the aggressive pattern fool you—the Accelera MT-01 is engineered to reduce noise levels and maintain smoothness, no matter how tough the terrain.

# MT-01

**UNIQUE TREAD BLOCKS WITH WIDE CENTER SIPES**  
increase off-road traction.

**OPEN SCALLOPED HUMP TREAD**  
offer superior tracking on off-road surfaces; situated between block slots to drain water rapidly, as well as throw away trapped rocks, mud and other foreign material.

**DEEP TREAD DESIGN**  
allows strong hold on ground surfaces and maintains grip on loose surfaces.

# BADAK X-TREME

The Accelera Badak X-Treme is a 4x4 off-road terrain tire made for adventure seekers. Built with an open primary tread block, a secondary tread block, and an aggressive sidewall, the Accelera Badak X-Treme is made to withstand even the toughest terrains. Its reinforced shoulder also adds protection, and ensures your ride won't end early from a puncture.

## OPEN PRIMARY TREAD BLOCK

ensures maximum tread contact area to provide better traction on in mud and rocks.

## SECONDARY TREAD BLOCK

helps in easy flushing mud and silt.

## AGGRESSIVE SIDEWALL

provides optimized side traction on extreme off-road terrains.

## REINFORCED SHOULDER

enhances puncture resistance to protect the open shoulders from piercing various sharp objects.

\* Newly added sizes

The Accelera Ultra-3 is a commercial tire designed for light commercial use. Key features include two wide grooves, twin ribs and circumferential sipes for better traction, along with notched shoulder blocks for stability. The Accelera Ultra-3 is a tough and durable companion you can rely on for your business needs.

**TWO WIDE GROOVES**  
combined with a smaller center groove rapidly clear water to prevent hydroplaning.

**TWIN RIBS AND CIRCUMFERENTIAL SIPES**  
provide on and off-road traction in dry and wet conditions while enhancing driving comfort.

**NOTCHED SHOULDER BLOCKS**  
offer excellent cornering stability.

EXTRA HEAVY-DUTY FOR COMMERCIAL VANS

The Accelera Ultra-5 is a commercial tire designed for light commercial use. Key features include double semi block ribs with unique sipes, three main grooves for quicker water evacuation, along with tough shoulder blocks provide good traction.

**DOUBLE SEMI BLOCK RIBS WITH UNIQUE SIPES**  
Provides handling stability and good traction as well as braking.

**TOUGH SHOULDER BLOCKS**  
Provides good traction when cornering to prevent understeer or oversteer.

**THREE MAIN GROOVES**  
Expel water quickly to prevent hydroplaning.

# X-GRIP

The X-Grip is a winter tire with additional winter tire studs to add some additional traction during winter road conditions. Some key features include a unique directional tread pattern, edge blocks with high density, a continuous center rib, and an optimum number of studs. The Accelera X-Grip is designed so you can drive confidently during winter's demanding conditions.

**UNIQUE DIRECTIONAL TREAD PATTERN WITH CROSS GROOVES**  
rapidly clears water to eliminate hydroplaning forces.

**EDGE BLOCKS WITH HIGH SIPE DENSITY**  
provide excellent grip and better traction under snowy and icy conditions.

**CONTINUOUS CENTER RIB**  
enables a self-cleaning function to clean snow from the center groove.

**OPTIMUM NUMBER OF STUDS**  
ensures maximum grip under extremely slippery conditions on severe ice roads.

# X-GRIP N

The Accelera X-Grip N is a studless winter tire designed to perform in snow & ice conditions. Key features include an asymmetrical design, four longitudinal grooves, and sinusoidal sipes. The X-Grip N tire will ensure your safety while maximizing performance and traction.

**ASYMMETRICAL DESIGN**  
maximizes performance and offers exceptional grip in snow, wet and dry conditions.

**FOUR LONGITUDINAL GROOVES**  
enable quick evacuation of water and snow along with enhancing traction.

**SINUSOIDAL SIPES**  
improve braking and handling performance while preventing sliding on ice and snow.

The X-Grip 4S is Accelera's first all-weather tire. Engineered with a rubber compound that is a fusion between winter tires and all-season tires, this versatile tire can be used during winter conditions, or all-year round. Some key features include a rigid shoulder block, high-density sipes, and a wider groove. The Accelera X-Grip 4S is a great choice for climates with all four seasons so you don't have to worry about changing your tires.

# X-GRIP 4S

**RIGID SHOULDER BLOCK**  
provides excellent cornering stability.

**TWO SEMI BLOCK RIBS WITH HIGH DENSITY SIPES**  
provide superior grip and braking on snow and ice.

**WIDE GROOVE**  
drains water effectively to protect against aquaplaning.

# X-TRA GRIPPER

The Accelera X-TRA GRIPPER is Accelera's first ATV tire designed especially for drivers looking for extra grip and traction. The outlined tread blocks and gaps between block grooves, coupled with the aggressive tread design make the X-TRA GRIPPER a tough tire that will deliver enhanced performance on various off-road terrains and landscapes.

**OUTLINED TREAD BLOCKS**  
increase traction when driving through extreme terrain like dirt, sand, and snow.

**GAP BETWEEN BLOCK GROOVES**  
provide additional grip on off-road conditions.

# ABOUT ACCELERA'S LIMITED WARRANTY

This limited warranty covers all new Accelera brand replacement radial tires purchased after May 1, 2016, supplied either directly or through an authorized Accelera dealer, which are mounted on passenger cars, vans and light trucks and have been used on the same vehicle that they were originally installed on.

This warranty applies to consumers actually purchasing and using the tires in all of North America, limited to the 48 contiguous states, the District of Columbia, the non-contiguous states of Hawaii and Alaska, and Canada.

## A. WORKMANSHIP & MATERIALS

Accelera warrants all eligible tires with a complete DOT identification number against defects in workmanship and materials. Upon examination, if Accelera determines that the tire(s) is not serviceable due to a condition covered by this warranty, it will be replaced by a comparable new Accelera tire as follows:

During the first 2/32" of the original usable tread, or within twelve (12) months from the date of purchase (proof of purchase required) whichever comes first, Accelera will replace the tire with a comparable new Accelera tire 100% free of charge. Applicable fees and taxes and costs of mounting and balancing are payable by the owner.

After the 100% replacement term expires and the tire is still within sixty (60) months of the date of purchase (proof purchase required), credit will be pro-rated towards the purchase of a comparable Accelera tire. The credit will be determined by the percentage of original tread depth remaining on the tire. Applicable fees and taxes and costs of mounting and balancing are payable by the owner.

The authorized Accelera dealer will determine the adjustment cost by multiplying the percentage of original usable tread worn by the current Accelera price in effect at the time of adjustment.

Refer to the example below to obtain the credit percentage:

RTD = Remaining Tread Depth

OTD = Original Tread Depth

If RTD = 5/32" = 5 and OTD = 10/32" = 10

The calculation is:

$$\frac{\text{Remaining Usable Tread Depth}}{\text{Original Usable Tread Depth}} = \frac{3}{8} = 0.375 = 38\%$$

## B. MILEAGE TREADWEAR WARRANTY

In addition to the above workmanship and materials warranty, Accelera also warrants that the tread life of all replacement passenger tires or light truck tires, supplied either directly or through an authorized Accelera dealer, will have the following tread wear warranty coverage from the point of original purchase (proof of purchase required):

CATEGORY	PATTERN	MILEAGE COVERED
Passenger	Eco Plush	45,000 miles
Passenger	PHI	30,000 miles
Passenger	PHI R	30,000 miles
Passenger	PHI 2	30,000 miles
SUV/4x4	IOTA ST68	35,000 miles
SUV/4x4	OMIKRON HT	35,000 miles
SUV/4x4	OMIKRON AT	35,000 miles

If a tire reaches the end of its usable tread life (2/32") before the stated mileage warranty, it will be replaced by a comparable Accelera tire on a pro-rated basis. The authorized Accelera dealer will determine the adjustment cost by multiplying the percentage of mileage obtained by the current Accelera price in effect at the time of adjustment.

To make a claim, the owner must present the original Accelera Mileage Warranty Card, which records the date of purchase, name of purchaser, original mileage, and identification of the vehicle to an authorized Accelera dealer.

## Eligibility For Mileage Tread Wear Warranty:

1. The tires must be rotated every 5,000 - 6,000 miles.
2. The owner must be the original purchaser of the tires and have the original copy of the invoice showing the application mileage.
3. The original purchaser must be the owner of the vehicle on which the tires were originally installed.
4. The tires are worn out evenly across the tread, down to the tread wear indicator (2/32") at which time they are considered to be 100% worn out. The tire must not have more than 2/32" tread depth difference.
5. The Tire Rotation Card must be completed by the servicing dealer.
6. For vehicles equipped with staggered size fitments (different tire sizes on the front and rear axles) which cannot be rotated, the mileage warranty for the front or rear tires will be 50% of the warranted miles specified under the standard Accelera tread wear warranty.

## Summary of Accelera Limited Tire Warranty Coverage:

CATEGORY	PATTERN	MILEAGE WARRANTY
PCR	Ecoplush	45,000

Winter	X-Grip 4S	N/A
ATV	X-tra Gripper	N/A

## OWNER'S OBLIGATION

In order to be eligible for Accelera's Limited Warranty coverage, the owner must:

1. Present the tire to any authorized Accelera dealer.
2. Submit or present the original purchase receipt with documented automobile mileage at time of tire installation and tire dismounting.
3. Submit a tire rotation record showing that all tires have been rotated at least every 5,000 – 6,000 miles (applicable to mileage warranty claims only).
4. Complete and sign an Accelera Warranty Claim Form, which is available at any authorized dealer.
5. Pay the amount due on a new tire, less the amount of credit, including taxes, mounting and balancing charges and/or the cost of other services.

Once tires are returned to Accelera by an authorized dealer and credit has been issued, submitted tires become the property of Accelera.

To locate an authorized Accelera dealer, please use our Dealer Locator portal on [www.acceleratire.com/dealer-locator](http://www.acceleratire.com/dealer-locator), or contact us using our contact form.

### DISCLAIMER:

THIS IS THE ONLY EXPRESS WARRANTY GIVEN BY ACCELERA, APPLICABLE TO ACCELERA BRAND REPLACEMENT PASSENGER CAR RADIAL AND LIGHT TRUCK RADIAL TIRES. ACCELERA DOES NOT MAKE ANY OTHER EXPRESS WARRANTY OR ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ACCELERA DOES NOT AUTHORIZE ANY OTHER PERSON, INCLUDING AUTHORIZED ACCELERA DEALERS OR CAR MANUFACTURERS, OR CAR DEALERS, TO CHANGE THIS WARRANTY OR CREATE ANY OTHER OBLIGATION IN CONNECTION WITH ACCELERA. ACCELERA WILL NOT DO ANYTHING OTHER THAN WHAT IS STATED IN THIS WARRANTY IF AN ANOMALY IS FOUND TO EXIST IN AN ACCELERA BRAND REPLACEMENT PASSENGER CAR OR LIGHT TRUCK RADIAL TIRE. ALL OTHER REMEDIES ARE EXCLUDED, INCLUDING ANY OBLIGATION OR LIABILITY ON THE PART OF ACCELERA FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES (SUCH AS A LOSS OF USE OF VEHICLE, LOSS OF TIME OR INCONVENIENCE) ARISING OUT OF AN ANOMALY.

SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

## DEALER'S OBLIGATION

To claim an adjustment from Accelera, the dealer must first complete a "Claim Adjustment Form" with the required details, which can be requested via email at [claims@zafco.com](mailto:claims@zafco.com) or through our website resources at [zafcointernational.com/resources](http://zafcointernational.com/resources). Each claim must be supported by three (3) medium resolution pictures per tire of the following:

1. Serial and DOT number, labeled as 1-1
2. Damaged portion, labeled as 1-2
3. Complete tire with the tread portion clearly visible, named 1-3; and so forth
4. A copy of the Accelera Limited Warranty Claim Form & Tire Rotation Card (applicable to mileage warranty only)

The completed "Claim Adjustment Form", together with the pictures, must be emailed to [claims@zafco.com](mailto:claims@zafco.com). The DOT and serial number cut-outs of adjusted claims must be mailed to us at the following address:

**ZAFCO International**

Attn: Accelera Tires Technical Department  
6745 NW 36th Street,  
Suite 260  
Miami, FL 33166  
United States

All claims will be settled within thirty (30) working days upon receipt of full details using the instructions stated above.

**TIRE REGISTRATION**

It is important that you register your Accelera tires promptly upon purchase. Registration is an important safety procedure since it enables the manufacturer to notify you in the event of a product recall. To complete registration, you will need to provide:

1. Your contact information
2. The tire DOT codes located on your tires
3. Your dealer's contact information (where you acquired the tires from)

Please use the form available on:

<https://acceleratire.com/tire-registration/> for quick and easy registration of your tires.

**SAFETY WARNING**

Accelera makes your safety our top priority. It is essential for you to ensure proper use and maintenance of your tires to avoid any serious injury. Here are some safety tips we recommend to mitigate your risk of tire failure:

1. Owners must continue to rotate tires in accordance to their vehicle owner's manual or every 5,000 – 6,000 miles.
2. Tires should be regularly inspected by a qualified tire professional for any signs of damage.
3. Tires should be mounted only by trained professionals. Follow all instructions in the vehicle owner's manual or tire placard in vehicle to avoid under-inflation, overloading and misapplication.
4. Use approved rims and wheels only.
5. Do not spin tires on slippery surfaces such as snow, ice, or mud, or spin in excess of 35 mph (56 kph), as indicated on the speedometer.
6. We recommend replacing any tires that are beyond ten (10) years from their date of manufacture. If your vehicle manufacturer has specific recommendations for tire replacement, you should follow the specific recommendations for that vehicle.
7. Always avoid purchasing used tires. Previous usage may have

damaged internal components that may lead to tire failure.

8. We recommend replacing all four tires at the same time. However, when only two are replaced, the new tires should be on the rear since deeper tread may provide better grip and water evacuation in wet conditions.
  9. We recommend routine air pressure checks as per your vehicle manufacturer's specifications.
- Any tire, no matter how well constructed, may fail in use as a result of damage or misuse. If you experience any vibrations or ride disturbances, or notice a bulge, bump, or any kind of irregularities, we recommend having your tires evaluated by a qualified tire servicer immediately.
